1. Purpose

This document establishes the standard onboarding process for new employees, interns, temporary personnel, and approved contractors joining BlueSea Foods.

Its purpose is to ensure that each new team member:

- understands the company, its mission, vision, values, and organizational structure;
- receives the information and resources needed to perform assigned duties;
- completes mandatory legal, food safety, quality, HSE, ethics, cybersecurity, and operational training;
- understands applicable policies, responsibilities, reporting lines, and conduct expectations;
- is integrated into the assigned department and work team;
- gains access to the systems, facilities, equipment, and documentation required for the role;
- receives timely feedback during the initial employment period;
- contributes safely and effectively from the beginning of the employment relationship.

2. Scope

This document applies to:

- permanent employees;
- temporary employees;
- interns and trainees;
- seasonal employees;
- agency personnel assigned to BlueSea Foods;
- contractors who require regular access to BlueSea Foods facilities, systems, or controlled information.

The guide applies to all departments and operational locations, including:

- Corporate Affairs;
- Human Resources;
- Operations;
- Quality Assurance;
- Health, Safety and Environment;
- Information Technology;
- Supply Chain;
- Finance;
- Procurement;
- Logistics;
- Cold Storage;
- Seafood Receiving;
- Production;
- Packaging;
- Laboratory;
- Warehouse.

Short-term visitors and service providers who do not perform regular duties are subject to the applicable visitor induction and access controls rather than the complete onboarding process.

3. Definitions

Term	Definition
Onboarding	Structured process used to integrate a new employee into BlueSea Foods.
Induction	Initial orientation covering corporate, legal, safety, quality, and role-specific requirements.
New Employee	Person beginning a formal employment relationship with BlueSea Foods.
Hiring Manager	Manager responsible for the position and operational integration of the new employee.
Onboarding Coordinator	Human Resources representative assigned to manage onboarding activities.
Department Induction	Orientation focused on the employee's assigned function, process, equipment, and responsibilities.
Mandatory Training	Training that must be completed before or within a defined period after starting work.
Probationary Period	Initial employment period used to assess suitability, adaptation, and performance.
System Access	Authorized use of BlueSea Foods applications, platforms, and digital resources.
Training Record	Evidence that required training was completed and acknowledged.

4. Onboarding Principles

BlueSea Foods onboarding is based on the following principles:

- safety before productivity;
- food safety and quality as shared responsibilities;
- clear and timely communication;
- respect, inclusion, and professional conduct;
- role clarity and accountability;
- protection of confidential information;
- controlled access to systems and facilities;
- documented training and verification of understanding;
- structured follow-up and continuous improvement.

5. Roles and Responsibilities

Human Resources Manager

The Human Resources Manager shall:

- ensure that this guide remains current;
- approve the onboarding schedule;
- coordinate with the hiring manager and support departments;
- verify completion of employment documentation;
- ensure that mandatory training is assigned;
- maintain onboarding and personnel records;
- monitor onboarding performance indicators;
- address escalated onboarding issues.

Human Resources Onboarding Coordinator

The Onboarding Coordinator shall:

- contact the new employee before the start date;
- issue the onboarding agenda;
- coordinate access badges, equipment, and system requests;
- conduct the corporate induction;
- collect required documents and acknowledgements;
- track completion of onboarding activities;
- schedule follow-up meetings;
- close the onboarding checklist when all requirements are completed.

Hiring Manager

The Hiring Manager shall:

- confirm the employee's role, duties, schedule, and reporting line;
- prepare the department onboarding plan;
- assign a supervisor, mentor, or buddy when appropriate;
- ensure the workstation and required tools are available;
- provide role-specific objectives;
- conduct initial performance follow-up;
- identify additional training needs;
- confirm satisfactory onboarding completion.

Direct Supervisor

The Direct Supervisor shall:

- explain daily responsibilities and performance expectations;
- introduce the employee to the work team;
- provide task-level instruction;

- verify safe work practices;
- observe initial job performance;
- provide feedback and coaching;
- report concerns to the hiring manager and Human Resources.

Information Technology

Information Technology shall:

- create approved user accounts;
- provide equipment and credentials;
- configure role-based access;
- verify cybersecurity controls;
- provide system orientation;
- resolve technical access issues;
- remove temporary access when no longer required.

Health, Safety and Environment

HSE shall:

- provide general safety induction;
- explain hazards, controls, PPE, emergency procedures, and reporting requirements;
- verify that role-specific safety training is completed;
- maintain applicable training records;
- authorize access to high-risk areas when requirements are met.

Quality Assurance

Quality Assurance shall:

- provide food safety and quality induction;
- explain hygiene, contamination prevention, traceability, product hold, and nonconformity reporting;

- verify training required for food-handling roles;
- maintain applicable quality training records.

New Employee

The new employee shall:

- provide accurate employment information;
- attend all required induction sessions;
- complete assigned training;
- follow BlueSea Foods policies and procedures;
- protect confidential information;
- use only authorized systems and equipment;
- ask questions when requirements are unclear;
- report unsafe conditions, food safety concerns, incidents, and access issues;
- participate in follow-up reviews.

6. Onboarding Process Overview

Phase	Period	Main Objective
Phase 1	Before Day 1	Prepare documentation, access, equipment, and schedule
Phase 2	Day 1	Welcome, corporate induction, and essential controls
Phase 3	First Week	Complete mandatory training and department orientation
Phase 4	First 30 Days	Develop role competence and confirm adaptation
Phase 5	Days 31-90	Consolidate performance and formally close onboarding

7. Pre-Onboarding Activities

Before the start date, Human Resources and the Hiring Manager shall complete the following activities.

Employment Documentation

The employee file should include, as applicable:

- signed employment contract or service agreement;
- identity documentation;
- tax and payroll information;
- emergency contact information;
- bank account details;
- confidentiality agreement;
- consent and privacy forms;
- medical fitness documentation where required;
- role description;
- signed policy acknowledgements.

Access and Equipment Preparation

The responsible departments shall prepare:

- employee identification number;
- access badge;
- locker where applicable;
- uniform and PPE;
- workstation;
- computer and peripherals;
- email account;
- BlueERP, BlueHR, BlueDocs, BlueQuality, BlueTrack, or BlueSupport access, as applicable;

- mobile device or radio, if required;
- tools and equipment assigned to the role.

Onboarding Schedule

Human Resources shall provide a schedule that includes:

- reporting time and location;
- contact person;
- dress requirements;
- documents to bring;
- induction sessions;
- department introduction;
- mandatory training;
- first-week activities.

Internal Communication

The Hiring Manager should notify the relevant team of:

- the employee's name;
- position;
- department;
- start date;
- reporting line;
- designated mentor or buddy, where applicable.

8. Day 1 Activities

Day 1 shall include the following activities.

BLUESEA FOODS

Corporate Affairs

Delivering Excellence from Ocean to Table

Document ID: BSF-HR-001

Version: 1.0

Status: Active

Welcome and Registration

- Welcome by Human Resources.
- Verification of identity and employment documentation.
- Delivery of access badge and onboarding materials.
- Confirmation of emergency contact information.
- Review of the onboarding agenda.

Corporate Induction

The corporate induction shall cover:

- company history and profile;
- mission, vision, and core values;
- business activities and products;
- organizational structure;
- main departments and reporting lines;
- customer and stakeholder expectations;
- sustainability and ethical trade commitments;
- internal communication channels;
- employee conduct expectations.

Policy Orientation

The new employee shall be introduced to:

- code of conduct;
- anti-harassment and respectful workplace expectations;
- confidentiality requirements;
- conflicts of interest;
- attendance and punctuality;
- leave and benefits;

- disciplinary principles;
- data protection;
- use of company property;
- social media and external communication rules.

Initial Safety Orientation

Before entering operational areas, the employee shall receive essential information on:

- emergency alarms;
- evacuation routes;
- assembly points;
- incident reporting;
- required PPE;
- prohibited actions;
- restricted areas;
- hygiene and sanitation rules;
- first aid contacts.

Department Welcome

The Hiring Manager or Direct Supervisor shall:

- introduce the employee to the team;
- explain the department's purpose;
- review the role description;
- explain reporting lines;
- review working hours and break arrangements;
- provide an initial site or department tour;
- identify the employee's workstation and resources.

9. Metadata Requirements

During the first week, the employee shall complete mandatory training applicable to the role.

Department Welcome

Module	Responsible Area	Required For
Corporate Orientation	Human Resources	All personnel
Code of Conduct and Ethics	Human Resources / Corporate Affairs	All personnel
Workplace Safety	HSE	All personnel
Emergency Response	HSE	All personnel
Food Safety and GMP	Quality Assurance	All plant and food-handling personnel
HACCP Awareness	Quality Assurance	Relevant personnel
Traceability Awareness	Quality Assurance / Operations	Relevant personnel
Cybersecurity Awareness	Information Technology	All system users
Data Protection and Confidentiality	IT / Corporate Affairs	All personnel
Corporate Systems Access	Information Technology	System users
Department Induction	Hiring Department	All personnel
Job-Specific Training	Direct Supervisor	All personnel

BLUESEA FOODS

Corporate Affairs

Delivering Excellence from Ocean to Table

Document ID: BSF-HR-001

Version: 1.0

Status: Active

Facility Tour

The facility tour should include, where applicable:

- main entrance and security point;
- Human Resources office;
- employee changing areas;
- cafeterias and rest areas;
- production areas;
- cold storage;
- receiving area;
- laboratory;
- warehouse;
- emergency exits;
- assembly points;
- first aid stations;
- restricted and high-risk areas.

Hygiene and Food Safety Requirements

Employees entering processing or product-handling areas shall be instructed on:

- handwashing;
- protective clothing;
- jewelry restrictions;
- illness reporting;
- personal hygiene;
- allergen controls;
- contamination prevention;
- product contact restrictions;
- sanitation practices;
- reporting food safety concerns.

10. Role-Specific Induction

The Direct Supervisor shall prepare a role-specific induction covering:

- key responsibilities;
- daily and weekly tasks;
- work instructions;
- process risks and controls;
- equipment use;
- quality standards;
- productivity expectations;
- escalation routes;
- required records;
- applicable KPIs;
- authorized decision limits;
- training and competency requirements.

No employee shall perform a controlled or high-risk task independently until required training and authorization are completed.

11. Corporate Systems Orientation

System access shall be assigned according to job responsibilities and the principle of least privilege.

Main Corporate Systems

The Hiring Manager should notify the relevant team of:

System	Purpose
BlueHR	Employee records, leave, benefits, and attendance
BlueERP	Finance, procurement, inventory, and operational data
BlueTrack	Seafood reception, lot identification, traceability, and product movement
BlueQuality	Audits, nonconformities, CAPA, and quality records
BlueDocs	Controlled documents and records
BlueSupport	IT service requests and incident tickets

Minimum User Responsibilities

All users shall:

- protect passwords and authentication factors;
- use only assigned accounts;
- avoid sharing credentials;
- lock unattended devices;
- report suspicious activity;
- access only information required for the role;
- follow document and data classification requirements;
- use BlueSupport for access or technical issues.

12. First 30 Days

During the first 30 days, the employee should:

- complete all mandatory training;
- demonstrate understanding of policies and responsibilities;
- perform assigned tasks under appropriate supervision;
- meet with the supervisor regularly;
- receive feedback on performance and conduct;
- identify questions or additional training needs;
- complete required competency checks;
- confirm access to necessary systems and documents.

30-Day Review

The supervisor should review:

- attendance and punctuality;
- training completion;
- safety behavior;
- food safety and quality awareness;
- technical progress;
- teamwork and communication;
- understanding of responsibilities;
- need for additional support.

13. Days 31–90

During this period, the focus is on:

- increasing independence;
- confirming role competence;
- monitoring work quality;

BLUESEA FOODS

Corporate Affairs

Delivering Excellence from Ocean to Table

Document ID: BSF-HR-001

Version: 1.0

Status: Active

- reinforcing safety and food safety expectations;
- evaluating adaptation to the team;
- confirming system and documentation use;
- resolving remaining access or training gaps.

60-Day Check-In

The supervisor and employee should discuss:

- progress against objectives;
- areas of confidence;
- barriers to performance;
- support required;
- additional learning needs;
- feedback on onboarding quality.

90-Day Review

The 90-day review should include:

- role performance;
- competency status;
- policy compliance;
- training completion;
- behavior and teamwork;
- attendance;
- safety and quality performance;
- suitability for continued assignment;
- onboarding closure.

14. Onboarding Checklist

The onboarding record should confirm completion of the following items:

Item	Responsible	Completion Evidence
Employment documents	Human Resources	Employee file
Access badge	Human Resources / Security	Badge assignment record
Equipment delivery	IT / Department	Asset assignment record
Corporate induction	Human Resources	Attendance record
HSE induction	HSE	Training record
Food safety induction	Quality Assurance	Training record
IT orientation	Information Technology	Access confirmation
Department induction	Hiring Manager	Checklist
Job-specific training	Supervisor	Competency record
30-day review	Supervisor	Review form
60-day check-in	Supervisor	Follow-up record
90-day review	Hiring Manager / HR	Final onboarding review
Cybersecurity Awareness	Information Technology	All system users

15. Training and Competency Verification

Training completion alone does not demonstrate competency.

Competency may be verified through:

- direct observation;
- practical demonstration;
- written assessment;
- oral questioning;
- supervised task completion;
- record review;
- performance monitoring.

Employees who do not demonstrate required competency shall receive:

- additional instruction;
- closer supervision;
- retraining;
- reassignment of tasks where necessary;
- formal follow-up.

16. Special Onboarding Requirements

Plant and Production Employees

Additional training may include:

- GMP;
- hygiene;
- contamination prevention;
- allergen controls;
- knife safety;

- machine safety;
- cold exposure;
- manual handling;
- product identification;
- traceability;
- cleaning and sanitation.

Laboratory Personnel

Additional training may include:

- sample handling;
- testing methods;
- calibration controls;
- laboratory safety;
- result recording;
- microbiological controls;
- chain of custody.

Drivers and Logistics Personnel

Additional training may include:

- vehicle safety;
- route controls;
- cold chain requirements;
- seal controls;
- cargo security;
- BASC-related controls;
- incident reporting.

Information Technology Personnel

Additional training may include:

- privileged access;
- cybersecurity incident response;
- data backup and recovery;
- change control;
- audit trail requirements;
- confidentiality restrictions.

Managers and Supervisors

Additional training may include:

- leadership expectations;
- performance management;
- corrective action;
- incident escalation;
- ethical decision-making;
- documentation responsibilities;
- management system requirements.

17. Confidentiality and Information Protection

All personnel shall protect:

- employee personal information;
- customer information;
- supplier information;
- product specifications;
- pricing and financial data;
- production records;

- traceability information;
- system credentials;
- audit results;
- legal and certification information.

Confidential or Restricted information shall only be accessed by authorized personnel.

18. Health, Safety, and Wellbeing

New employees shall be informed about:

- occupational health requirements;
- incident and near-miss reporting;
- emergency contacts;
- fatigue and stress management;
- safe lifting;
- ergonomic practices;
- workplace violence prevention;
- psychological safety;
- medical restrictions relevant to assigned tasks;
- employee support channels.

19. Food Safety and Quality Expectations

Every employee is responsible for:

- protecting product integrity;
- following hygiene rules;
- reporting contamination risks;
- complying with procedures;
- completing records accurately;
- preventing unauthorized product release;
- escalating deviations;

- supporting traceability;
- participating in audits and corrective actions;
- contributing to continuous improvement.

20. Communication and Support Channels

New employees may use the following channels:

Need	Contact or System
Employment questions	Human Resources
Safety concern	HSE or Direct Supervisor
Food safety or quality concern	Quality Assurance
IT access or incident	BlueSupport
Controlled document request	BlueDocs / Document Control
Workplace concern	Human Resources or Manager
Emergency	Emergency Coordinator / Site Protocol

21. Onboarding Performance Indicators

Human Resources may monitor:

Indicator	Example Measure
Onboarding completion rate	Percentage completed within 90 days
Mandatory training completion	Percentage completed within target period
Access readiness	Percentage of employees with access available on Day 1
90-day retention	Percentage remaining after 90 days
New employee satisfaction	Survey score
Supervisor satisfaction	Evaluation score
Training gaps	Number of overdue or incomplete modules
Onboarding cycle time	Average days to completion

22. Records

The following records shall be maintained:

- onboarding checklist;
- induction attendance records;
- training assessments;
- competency evaluations;
- access approvals;
- asset assignment records;
- policy acknowledgements;
- 30-day review;

BLUESEA FOODS

Corporate Affairs

Delivering Excellence from Ocean to Table

Document ID: BSF-HR-001

Version: 1.0

Status: Active

- 60-day check-in;
- 90-day review;
- onboarding feedback survey.

Records shall be retained according to applicable legal, corporate, and document retention requirements.

23. Noncompliance

Failure to complete mandatory onboarding requirements may result in:

- temporary restriction from duties;
- suspension of system access;
- additional training;
- increased supervision;
- corrective action;
- reassignment;
- disciplinary action where justified.

24. Continuous Improvement

Human Resources shall periodically evaluate onboarding effectiveness using:

- employee feedback;
- manager feedback;
- training completion data;
- audit results;
- incident trends;
- turnover information;
- access and equipment readiness;
- policy acknowledgement records.

Improvement actions shall be documented and monitored.
